SPECIALTY COATING SYSTEMS

MACoat

Ideal for areas with heavy foot traffic, Westcoat's MACoat is a fiber lath reinforced deck system engineered for use on elevated concrete and reinforced plywood walking decks. When sealed, MACoat offers a durable waterproof coating specified for use on balconies, corridors, stairs, plazas, and landings. Westcoat MACoat delivers superior durability and tough performance in hotels, condominiums, apartments, office buildings, and residential homes.

WATERPROOF
RELIABLE MOISTURE BARRIERS

westcoat.

Rebuffs rain, snow, and spills.

Developed for plywood and concrete surfaces, our Waterproof Coat product line was created by some of the most experienced technicians in the industry and features the highest quality components for complete waterproof protection.

Ultra lightweight

Designed for use on elevated concrete and many plywood walking decks, MACoat weighs less than one pound per square foot when installed.

Waterproof

A combination of our fiberlath, a proprietary acrylic waterproofing resin mixed with a specially formulated cement, and sealed with an acrylic topcoat, MACoat provides long-lasting protection.

Helps eliminate slipping

Ensure safe pedestrian traffic in a variety of conditions. MACoat's textured finish provides a skid resistant surface for added safety.

Fast access after installation

Spend less time waiting around. MACoat dries quickly for fast access during and after installation.

Great for old or new surfaces

Easily rehabilitate problem surfaces. In many cases, MACoat can be applied over existing deck systems, saving time and labor. MACoat works equally well on new surfaces and comes in a wide variety of colors and textures.

Versatile

Install over concrete or reinforced plywood.

Advantages

- Waterproof
- Flexible
- Durable
- Fast access after installation
- Wide range of colors and textures
- Tough, UV-resistant final coat
- Safe anti-skid textured finish
- Environmentally safe acrylics
