Texture-Crete

Resurface and beautify existing concrete with Westcoat's Texture-Crete, a series of polymer modified cementitious coatings designed to infuse with concrete.

Texture-Crete transforms plain concrete into a durable smooth or textured finish. Easily simulate tile, flagstone, slate, and more with a variety of Westcoat finishes.

TC	TEXTURE COAT DECORATIVE TEXTURED SURFACES
	westcoat.

Add texture. Add dimension.
Our Texture Coat product line transforms plain concrete into decorative, durable, textured works of art. Texture Coat's finishes work equally well on old or new concrete and are perfect for simulating the look of flagstone, slate, stone, pavers, tile, or create a look all your own.

SPECIALTY COATING SYSTEMS

FOR PROFESSIONAL USE ONLY

Inside or outside, residential or commercial

Texture-Crete is primarily used for resurfacing driveways, walkways, patios, garage floors, courtyards, and pool decks, yet is equally suited for interior living or office areas.

Fast drying

Spend less time waiting. Texture-Crete dries quickly for added savings in time and labor.

Safe installation

Protect our environment from toxic chemicals. The Texture-Crete system offers the option of a solvent-free installation.

Low maintenance

Keep your customers satisfied. Texture-Crete stands up to traffic and requires low maintenance.

Variety

Unlimited colors and a variety of textures and patterns will please even the most discriminating customers.

Proven

Millions of square feet installed on thousands of projects since 1989. Texture-Crete has been installed on hundreds of high profile venues such as Disneyland, Legoland, Toyota, Hyatt Hotels, and Marriot Hotels.
